DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 25-29 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 25, line 9, "the compression means" lack antecedent basis, since there is no means for compression claimed.

Regarding claim 29, the word "means" is preceded by the words "first" and "second" in an attempt to use a "means" clause to recite a claim element as a means for performing a specified function. However, since no function is specified by the words preceding "means," it is impossible to determine the equivalents of the element, as required by 35 U.S.C. 112, sixth paragraph. See *Ex parte Khumb*, 159 USPQ 694 (Bd. App. 1967).

In claim 32, "a draw back control unit" is claimed however, this raises double inclusion issues since this is further defining the "means for controlling output" positively recited in claim

31. In line 3 of claim 31, the following phrase or similar language should be inserted before the phrase "a draw back control unit", --said means for controlling output comprising--.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 31 is rejected under 35 U.S.C. 102(b) as being anticipated by Ulbing.

Ulbing shows a peristaltic machine comprising body 10; deformable tubing 44; primary and secondary rollers 28; movable carriage 18; means for controlling output 50.

Allowable Subject Matter

5. Claims 21-24 are allowed.

6. Claims 25-29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

7. Claim 32 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Bauerlein et al, Vilbert, La Montagne et al and Mascaro show devices with peristaltic apparatuses.
